Mr. Shaw,

Please consider this email as approval of your 30 day extension. You now have until March 21, 2014 to submit your response to the information request.

Attached are the 2 documents in EPA's possession that indicate that Black & Veatch may have done business with SPD. One is a customer list that shows that SBD considered B&V a customer and the other is a transaction detail report indicating that B&V had a monetary relationship of some kind with SBD. Both documents show the dates, so I hope this helps you in your quest to find the requested information.

If you have any other questions feel free to contact me at 732-321-6647.

Thank You,

Ms. Hriczko,

Thank you for returning my call and leaving a voicemail message this afternoon.

First, you are correct that I am requesting an extension of time to respond to the request of information and your proposal of a 30-day extension until March 21 is appreciated. Please reply to confirm.

Second, the request for information indicates that "Black & Veatch" may have done business at some point with Superior Barrel and Drum Company, Inc. The initial search of Black & Veatch company records has not identified any contact between a Black & Veatch entity and Superior Barrel and Drum, and we are challenged to identify where to focus our additional investigation. If you could provide some additional information that identifies the timeframe of such a possible contact and information such as a project name or Black & Veatch company contact, that would be of assistance in our continued effort to provide an appropriate and thoughtful response to the request for information. Please call or reply with any additional information.

Thank you in advance for your assistance.

Kind regards,
